DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Specification

Please substitute the **TITLE** for:

"Semiconductor Package Comprising a Carrier Having at Least a Cavity Therein"

In **THE CLAIMS**:

Cancel **NON-ELECTED** claims 3 and 5-12. The above claims were non-elected **without** traverse.

Drawings

The following changes to the drawings have been approved by the examiner: All of the cross hatching patterns should be selected from those shown on page 600-81 of the MPEP based on the material of the part. Also see 35 CFR 184 (h)(3) and MPEP 608.02. In order to avoid abandonment of the application, applicant must make these above drawing changes.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The present Application specifically recite, in the independent claims 1 and 13, a semiconductor packaging device comprising a carrier substrate having at least a cavity therein, said cavity for fitting a chip; said chip having back and active surfaces; an insulating layer and its specific disposition relative the chip and the carrier, conductive holes and their structural relationship to the chip and insulating layer; a multi-layer structure and its structural disposition relative all the structures above; and solder balls, ball pads and their disposition relative the rest of the claimed structure. More particularly, the specific location of the chip with respect to the slot, the affixing of it to the carrier, and the disposition of all the above with respect to one another (including all other specifics recited in the claims) make up for a packaged device that is neither obvious over nor anticipated by the prior art of record.

The prior art made of record and not relied upon, which discloses packaged semiconductor chips disposed in a cavity within a substrate include Sakai et al., Hashimoto, Hayashi, Sylvester, and Suzuki.

However, the prior art of record fails to, either alone or in combination anticipate the invention recited in independent claims 1 and 13. Hence, the Notice of Allowability found herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elle Cruz whose telephone number is 703-306-5691. The examiner can normally be reached on M-F 10-6:30.
